OFFICE *of the* AUDITOR GENERAL
Republic of Fiji

16th Meeting of the INTOSAI Working Group on
Fight Against Corruption and Money Laundering (WGFACML)

Presentation from SAI Fiji

Fiji

- The current state of AI in Fiji is still in its early stages.

- Public Sector Entities are yet to fully embrace the technology.

Challenges for SAI's in Pacific

- Lack of Digitized Data
- Low availability or quality of data
- Lack of Skilled Professionals. High Staff Turnover

Way Forward

- SAI Fiji - uses Arbutus Analyzer. A Data Analytical tool to analyze and simplify data.

- Building capacity on use of AI. (Twinning)

- Create Network and collaborate with our Stakeholders. AI can be possible if our clients are automated to provide information online records.

Thank You
